LEARNING AND GROWING

The most effective way for your child to retain information is through play-based activities and a curriculum that is built around hands-on learning. CHESS Preschoolers regularly participate in rich lessons where they explore music, cooking, fitness, and have outdoor adventures.

Prayer is incorporated throughout our days, and we love praise and worship! At CHESS, a Biblically-based education does not mean we only learn Bible verses - a Biblical worldview is woven into everything we do, from daily lessons to time around the lunch table together.

We know that your student learns best when lessons and classrooms are presented in the way he naturally interact with the world around him. Using the model of "8 Great Smarts", we aim to discover students' individual learning styles, then meet them where they are. A "nature smart" preschooler will learn to count best when he counts rocks or leaves. A "music smart" student will thrive in an environment where she can sing, dance, and move! Identifying and responding to *how* each child is smart sets our students up for a formative, successful learning experience.
