

## A PRIVATE, HYBRID SCHOOL SERVING PK-12 STUDENTS IN SW OHIO.

### Vision & Mission

**We are CHESS.** As a future-facing, 21st-century school, we help students discover who God created them to be by strategically matching students' God-given gifts with creative educational opportunities

### Christ-Centered Community

**We are created to belong.** When Christ-centered families fervently follow biblical principles and are united in community, learning is maximized. Made in the image of God, we strengthen our identity in Christ through Christian community patterned after the Trinity as we know God and are known by others.

### Passionate Discipleship

**We are made for influence.** As Christ followers, relationships connect us to God and others. We experience passionate discipleship through authentic, daily interactions in addition to an intentional, structured curricula infused with biblical integration.

### Contagious Learning

**We are created to learn.** By designing a safe, interactive, and engaging environment, students and teachers experience contagious learning in the context of a transformative biblical worldview. As lifelong learners, we are 21st century, critically-thinking, problem-solving, Christ-centered world-changers.

### Flexible Engagement

**We are each unique.** Rather than delivering a "one-size-fits-most" education, we give families the choice for their level of engagement through creative collaboration with the school, individualized scheduling, and flexible financial options.

### Transformative Future

**We are made to grow.** Spiritually, educationally, relationally, and physically, we seek corporate and individual transformation as we increasingly become who God created us to be.

Your child is unique. Their education should be, too. As CHESS teachers walk alongside students to help them discover their learning style, gifts and passions, education becomes relevant and engaging. Our personalized learning curriculum blends the best of modern education in a small community which champions minds to explore, learn and grow in an atmosphere inspired by Biblical truths and wonder.
